

LUIS CADETE

ARTIFICIAL
INTELLIGENCE
SPECIALIST

HARD SKILLS

- Programming Languages: Python, Java, C# (.NET), JavaScript, SQL
- AI & Machine Learning: TensorFlow, Keras, PyTorch, Scikit-learn, OpenCV, MLOps
- Data Science & Big Data: Pandas, NumPy, Matplotlib, Seaborn, Hadoop, Spark
- Cloud, DevOps & Systems: Docker, Jenkins, Linux, Microsoft Azure, Git
- Web & APIs: FastAPI, Node.js, Vue.js

LANGUAGE SKILLS

PROFILE

As an Applied Informatics graduate specializing in Artificial Intelligence, I combine a strong foundation in software engineering with hands-on experience in building intelligent systems. During my studies, I successfully delivered practical AI solutions for real-world business cases through various industry and academic projects.

My journey of moving to Belgium and mastering Dutch has sharpened my adaptability and perseverance, qualities I bring to every IT challenge. Driven by curiosity and a continuous desire to learn, I stay up-to-date with new methodologies. I am currently seeking an opportunity to further develop my skills in a professional environment and actively contribute to innovative, AI projects.

EDUCATION

Professional bachelor in applied informatics

Hogeschool PXL, Belgium | Graduated: 2026
Specialization: Artificial Intelligence

ASO SCIENCES-MATHEMATICS

Sint Michiel Leopoldsburg | Graduated: 2023

EXPERIENCE

Salesperson | COLRUYT Beringen

2020 - 2025

- Customer-centric thinking and assistance
- Strong communication skills
- Stress resistance in a fast-paced environment

Production Worker | SLS Schippers Lommel

2023 - Present

- High attention to detail
- Process efficiency
- Independent working and problem-solving

Order Picker | Nike Ham

2024 - Present

- Teamwork in a highly dynamic environment

PROJECTS

AI & Computer Vision Developer | Wally Automation

- Built a Dockerized computer vision system (Mask2Former/SegFormer) with a FastAPI backend for automated industrial quality control.
- Tech Stack: Python, PyTorch, FastAPI, Docker, DVC

Data & MLOps Engineer | End-to-End Pipeline Project

- Designed an automated Big Data & MLOps pipeline (NiFi, Kafka, Spark) featuring Jenkins CI/CD, data drift, and anomaly detection.
- Tech Stack: Docker, Jenkins, Spark, Kafka, NiFi, Grafana

Backend Developer | H.Essers

- Developed a scalable, containerized Java Spring Boot REST API for OCR document matching, utilizing PostgreSQL and MinIO S3 storage.
- Tech Stack: Java, Spring Boot, Docker, PostgreSQL, MinIO
